In Two Sections
Section TWO

INDEX TO VOLUME 12

July thru December 1946

How to Use This Index

As you know, items in *Quote*, arranged alphabetically according to subject, are assigned an index number. In our semi-annual index, the first numeral in each reference refers to the issue of *Quote*, the second numeral indicates the location of the item within that issue, according to its index number. Thus: "Accuracy—1-1; 26-1" tells you that items relating to *Accuracy* will be found in the 1st and 26th issues of this volume of *Quote* under index number 1.

Quotations in the section *May We QUOTE You On That?* are also numbered consecutively, but each number is followed by the letter Q. The reference to "Adolescence, Maturity—13-32Q" indicates that this particular quotation appears in issue number 13, item 32-Q, in the *May We QUOTE . . .* section.

One or more letters, following an issue number, refers to mat'l in regular departments. For example: "Advertising—4-NN; 26-NN" means that references to new ideas in *Advertising* will be found in the 4th and 26th issues, under the department heading, *News Of The New*. A complete list of department abbreviations follows:
